

Levin's List

Okay, we admit it. LevinsList is a bit of a jab at our dear exarch. But we're so sure that so many of you have something you want him to hear that we felt it appropriate to provide a forum for your comments.

Besides serving as a sounding board for pointed remarks, however, LevinsList does exist to provide a real service. Consider this a greatly exaggerated version of the Want Ads section of your local newsfax. In addition to Want Ads, we'll also support the following categories: Announcements, For Sale, Jobs, Lost and Found, Personals, Services, and the ubiquitous (and likely most entertaining) Miscellaneous.

DATA DUMP - - ARCHIVE #2A-19B-FIV//STRLNG//DECRYPT(31360404.091059) - - DATA DUMP - -Two generations later, and it all boils down to this, doesn't it? Well, you red robes and Stonies aren't going to silence this one. Not this time. Cult of Apollyon, HAH! Dion, tell "Daddy Z" and "Art" we know all about them, and all about you, too. You saw the ruins yourself; they were just the tip of the iceberg. Maybe you should give serious thought to whether you're on the right side. To anyone else reading this: the Five are real. Gabriel, Jardine and all the rest. The source of the Manei Domini; the origins of the secret fleets? All just a hint. Thomas knew more than he realized. Victor, Devlin, Hohiro, Yvonne—they ALL knew, but dared not say. The biggest mystery of the Jihad lies in the Worlds that disappeared long before the Word was a glimmer in Jerome Blake's eye. This is no "Starling" conspiracy, people. This is REALITY. Soon, all will be revealed! - Immortal Truth

WANTED: A general public not easily swayed by slick-talking, good-looking, but otherwise eminently corruptible politicians. Must be able to look past empty rhetoric and examine actions, not just verbiage. Must be willing to pull back the curtain to see the puppet strings putting the politicians in action. Above all, must understand that simply having a glorious military past does not automatically make one a good leader, nor does it even make one a good person. In short, the general public for which I am seeking must not be easily blinded by the bright lights the powers of the Inner Sphere often shine our way. Contact Ratmole.

Waldo – THANK YOU SO MUCH for the new 'Mech! Oh my gosh! I don't know how you got ahold of a new model Mangonel, but it suits me perfectly! I didn't think that anything could replace my Thunderbolt but you've made a believer out of me. It runs like a dream and the targeting gear is top-notch. And you're right – the modified hip actuators make it more stable when it's firing. TOTALLY worth the extra price. I've been telling all my friends about Honest Waldo's 'Mechs. You really live up to your name. Hope it gets you some extra business! Tanya C.
